NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015

1. APPLICATION OF REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

The Group has applied for the first time in the current year the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Amendments to HKFRSs	Annual Improvements to HKFRSs 2010 - 2012 Cycle
Amendments to HKFRSs	Annual Improvements to HKFRSs 2011 - 2013 Cycle
Amendments to HKAS 19	Defined Benefit Plans: Employee Contributions

The application of the above amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2. SEGMENT INFORMATION

Operating segments

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the Group's chief operating decision maker in order to allocate resources to the segments and to assess their performance. The chief operating decision maker of the Group has been identified as the executive directors of the Company (the "Executive Directors").

The Group determines its operating segments based on the internal reports reviewed by the Executive Directors to facilitate strategic decision making.

The Group currently organises its operations into two operating divisions, which also represent the operating segments of the Group for financial reporting purposes, namely sales and distribution of piped gas and related products and gas connection. They represent two major lines of business engaged by the Group. The principal activities of the operating and reportable segments are as follows:

Sales and distribution of piped gas and related products	– Sales of piped gas (mainly natural gas) and gas related household appliances*
Gas connection	– Construction of gas pipeline networks under gas connection contracts

* Sales from gas related household appliances contribute to less than 5% of the Group's total revenue.

Segments results represent the profit before taxation earned by each segment, excluding finance costs, share of results of associates, share of results of joint ventures, other (losses) gains, net and unallocated corporate expenses such as central administration costs and directors' salaries. These are reported to the Executive Directors for the purposes of resource allocation and assessment of segment performance.

Information regarding these segments is presented below.

FINANCIAL REVIEW

Profit after taxation attributable to shareholders of the Company excluding the unrealised exchange loss and the provision for the disposal of the coke plant of Changchun Gas Co., Ltd. ("Changchun Gas") amounted to HK\$1,202 million, an increase of 1% as compared to the corresponding period last year. The Group recorded an unrealised exchange loss of HK\$301 million caused by fluctuation in Renminbi exchange rates in 2015. As Changchun Gas ceased to supply manufactured gas and changed to use natural gas as gas source, a provision of HK\$94 million for the disposal of the coke plant attributable to the Group was recorded. Profit after taxation attributable to shareholders of the Company amounted to HK\$807 million, a decrease of 23% as compared to the corresponding period last year. Basic earnings per share amounted to HK30.45 cents, representing a decrease of 24% compared to the corresponding period of 2014.

Turnover

Turnover from the sales of piped gas and related products declined 3% from HK\$6,205 million in 2014 to HK\$6,011 million in 2015 due to devaluation of Renminbi and downward adjustments to the natural gas price as made by the Chinese Government in 2015. The total consolidated volume of gas sold during the year amounted to 1,719 million cubic metres, on a par with 2014. In the gas connection business, income from connection fees for the year amounted to HK\$1,708 million, a rise of 2% compared to 2014. This was attributable to approximately 389,000 consolidated new household connections in 2015.

Gas Fuel, Stores and Materials Used

The cost of gas fuel, stores and materials used amounted to HK\$4,936 million, while that was HK\$5,128 million in 2014. The decrease in expenses was mainly attributable to the downward adjusted purchase price of natural gas and the devaluation of Renminbi in the current year.

Overhead Costs

Overhead costs in 2015 amounted to HK\$1,765 million, up 5% as compared to HK\$1,688 million in 2014. The increase was mainly due to the Group's business development together with escalations in wages and inflation. Staff costs and depreciation and amortisation expenses rose by 9% and 12%, respectively. At the same time, an increase of HK\$3 million in overheads was due to the inclusion of new subsidiaries in 2015.

Staff Costs

Staff costs increased from HK\$788 million in 2014 to HK\$857 million in 2015. The increase in staff costs was due to the increase in the number of staff in line with our business development needs, the addition of new subsidiaries and higher average salaries on the mainland.

Finance Costs

Finance costs in 2015 amounted to HK\$181 million, an increase of 4% as compared to 2014. This rise in finance costs reflected the increase in loans mainly due to the acquisition of new projects and business development.

Available-for-sale Investments

Available-for-sale investments mainly consisted of the Group's investment in Chengdu City Gas Co., Ltd. ("Chengdu Gas") and Nanjing Zhongbei (Group) Co. Ltd. ("Nanjing Zhongbei"), which contributed dividends to the Group. Chengdu Gas was stated at cost while Nanjing Zhongbei was stated at fair value and no impairment provision was required during the year.

Financial Position

The Group has adopted a prudent approach in financial resources management, maintaining an appropriate level of cash and cash equivalents as well as adequate facilities to meet the requirements of day-to-day operations and business development, while also controlling borrowings at a healthy level.

As at 31 December 2015, the Group's total borrowings amounted to HK\$8,768 million, of which HK\$994 million represented loans from The Hong Kong and China Gas Company Limited ("HKCG") due between 2 to 5 years, HK\$3,183 million represented bank loans and other loans due within 1 year, HK\$4,558 million represented bank loans and other loans due between 1 to 5 years, and HK\$33 million represented bank loans and other loans due over 5 years. The Group entered into an interest rate swap contract to swap the 5 year variable-rate bank borrowing of HK\$350 million to the fixed-rate borrowing in 2011. Other than the HK\$1,730 million in bank loans and other borrowings which bore interests at fixed rates, the Group's loans were mainly arranged on a floating interest rate basis. The maturities and interest rates of the loans were arranged to provide sound financial resources and stable interest costs for the Group. The Group's borrowings consists of HK\$1,931 million borrowings dominated in Renminbi and the remaining HK\$6,837 million borrowings dominated mainly in Hong Kong dollars and United States dollars. The businesses of the Group are mainly occurred in mainland China and most transactions, assets and liabilities were stated in Renminbi. As a result, the Group bore currency risk from fluctuations of Renminbi exchange rate for non-Renminbi denominated deposits and borrowings. As at 31 December 2015, the Group did not have any pledge on assets. As at the end of the period, the Group had a gearing ratio (net debt excluding the HKCG loans ("Net Debt") to equity attributable to shareholders of the Company plus Net Debt) of 28.6%.

As at 31 December 2015, the Group's cash and cash equivalents together with time deposits amounted to HK\$2,376 million, of which 95% are Renminbi-denominated and the rest are denominated in Hong Kong dollars and United States dollars.

As at 31 December 2015, the Group's unutilised available facilities amounted to HK\$2,850 million.

The operating and capital expenditure of the Group is funded by cash flows from operations, internal liquidity and financing agreements with banks and its shareholders. The Group maintains a strong liquidity position with its cash and cash equivalents on hand and unutilised banking facilities and we have adequate financial resources to meet our contractual obligations and operating requirements. Benefiting from our high credit ratings, the Group enjoys favourable interest rates on bank loans.

Credit Ratings

In June 2015, Standard & Poor's upgraded the long-term corporate credit rating of Towngas China from "BBB" to "BBB+", while maintaining its long-term Greater China credit rating at "cnA+" and its rating outlook as "stable". In July 2015, Moody's Investors Service upgraded the issuer rating of Towngas China from "Baa2" to "Baa1" with a "stable" outlook rating. These ratings, and the ongoing enhancement in our credit standing in particular, reflect the credit rating agencies' recognition of Towngas China's sound financial position.

Contingent Liabilities

The Group had no material contingent liabilities as at 31 December 2015.

Final Dividend

The Board recommended the payment of a final dividend for the year ended 31 December 2015 of HK ten cents per share (2014: HK ten cents per share). The Board also proposed to offer a scrip dividend option to allow shareholders to elect to receive the final dividend wholly or partly in the form of new fully paid shares instead of in cash.

BUSINESS REVIEW

China's GDP growth recorded a 25-year low of merely 6.9% in 2015. As the growth of the manufacturing sector in China continued to decelerate, coupled with the tumbling oil prices and other macroeconomic factors, as well as the lagging adjustment of piped natural gas prices, sales in the natural gas industry in China was deteriorated.

Despite the sluggish economic environment, our businesses succeeded in achieving steady growth due to the concerted efforts of the Group as a whole. In view of the Group's forward-looking development strategies based on the prevailing circumstances, we not only continued to proactively expand our customer base, but also ventured into new business areas, thereby injecting additional growth momentum to the Group's businesses. At the same time, we continued to leverage our inherent advantages, leading to positive results in our different businesses. Among these, both the number of our customers and the sales of our Bauhinia gas appliances grew steadily, while the total volume of city-gas sales remained stable. Our ability to achieve such results against the difficult backdrop of slowing economic growth was satisfactory indeed.

As always, we continued to pursue continuous innovation as well as Total Quality Management ("TQM") in our daily operations. To enhance operational efficiencies, and ultimately drive business growth, every effort was also made to unleash the power of creativity and advancement while enhancing workflow. To this end, led by our Human Resources Department, we promoted the importance of TQM among our regional offices and project companies across the country. As a result, staff implemented improvement initiatives throughout the Group leading to further enhancements in workflow in a number of aspects, ranging from engineering, safety to services. Furthermore, the easy-to-understand formula ($G = i \times i$, Growth = innovation x implementation), which was specially designed to highlight the Group's management direction, came to fruition last year in a number of wide-ranging categories. This substantially improved overall work efficiencies and brought in an increasingly effective range of services to our customers.

In 2015, in addition to investing in our manpower resources, the Group remained committed to enhancing our corporate social responsibilities, as we worked towards building a sustainable community and green environment while also pursuing our ongoing business growth.

Sales of Piped Gas

In 2015, the Group sold a total of 6,562 million cubic metres of piped gas, representing an overall increase of 1%, with a total number of 10.04 million customers. Industrial gas sales is 3,679 million cubic metres, accounting for 56% of the total volume of gas sold by the Group, while commercial gas sales is 1,111 million cubic metres, accounting for 17% of the total volume of gas sold by the Group, and residential gas sales accounted for 27% of the total volume of gas sold by the Group. As the growth of the manufacturing sector in China continued to slacken, some large enterprise customers cut their production volume, affecting the overall industrial gas consumption. The Group seized business opportunities swiftly on the back of its abundant gas supply in vigorously expanding into the commercial gas market, so as to ensure the continued future growth of the gas sales of the Group.

Development of New Projects

We continued to expand the geographic footprint of our business presence with the acquisition of a total of six new gas projects in Shandong Province, Hebei Province, Anhui Province and Heilongjiang Province, including city gas projects in Wulian County in Rizhao City, Shandong Province, Anxin County in Baoding City, Hebei Province, Jiangbei New District of Wuhu City, Anhui Province; Xuancheng-Huangshan natural gas sub-stream and downstream city-gas project, Anhui Province; Taigang Gas mid-stream long-haul pipeline project in Taian City, Shandong Province, and Xingqixiang vehicle gas refilling station project located in Qiqihar City, Heilongjiang Province, the second vehicle gas refilling station project of the Group in Qiqihar City.

Details of the new projects are as follows:

	Project	Shareholding of the Group	Major Industries in the Operating Regions
1.	Wulian County, Rizhao City, Shandong Province,	70%	Automobile parts and accessories, machinery manufacturing, stone supply
2.	Anxin County, Baoding City, Hebei Province	70%	Manufacturing, electronic information
3.	Jiangbei New District, Wuhu City, Anhui Province	100%	Non-ferrous metal smelting, down, shoes

Employee and Remuneration Policies

As at 31 December 2015, the Group employed a total of 21,548 staff amongst which 99% of them worked in mainland China. Employee remuneration is based on individual performance, job nature and the relevant responsibilities involved. The Group provides on-the-job training as well as a range of staff benefits including medical welfare, provident funds, bonuses and other incentives. We encourage a healthy balance between work and leisure, as well as endeavour to continuously improve the work environment so that employees can realise their full potential for the benefit of the Group.

Awards Honored

Being stringent towards product quality and unwaveringly committed to outstanding services, the Group was honored a great number of awards in diverse fields, ranging from operation safety, treasury management, customer services and sustainable development. The Group scooped a number of awards in 2015, including the "2014-2015 China Marketing Award" jointly awarded by The Economic Observer and Hong Kong Management Association, "The Most Influential Company, Corporate Social Responsibility in China 2015" at the "CSR Brands in China 2015" organised by the Corporate Citizenship Committee of China Federation of Social Work, CCTV's Business News Channel and the Tencent Charity Foundation, the "Highly Commended: 2015 Award for Treasury Excellence at the 4th 'Taozhu Gong Awards' " from EuroFinance of The Economist Group, the "2015 Outstanding Social Responsible Enterprise Award" at the 11th "China CSR International Forum" co-hosted by China News Service and China Newsweek and the title of "Top 10 Units in China for After-sales Service" by China General Chamber of Commerce and China Foundation of Consumer Protection. In 2016, the Group was awarded the "China Best IT Project Award 2015" at the "China Top CIO Award 2015" organised by the IT Manger World, the New Finance World, the CIO.com.cn and the China Computerworld. The Group is well regarded in areas including marketing, corporate social responsibility, city gas industry, financial management, customer services and information management.

Corporate Social Responsibility

While pursuing our business development, we also keep our corporate social responsibilities in mind. As such, we have integrated the principles of sustainable development into our daily operations and make every effort to balance environmental, social and economic factors in our corporate development strategies and in our day-to-day operations. Our goal is to make a contribution to the communities where we operate, and we are also committed to promoting the sustainable development of both the community and the environment.

The Group has organised the "Towngas Rice Dumplings for the Community" and the "Gentle Breeze Movement" for charitable causes every year since their inception in 2013. The Group distributes rice dumplings to the elderly and people in need to celebrate the Dragon Boat Festival. The Group also donates uniforms, sporting equipment, computers and other materials to schools located in remote mountainous areas, and helps these schools refurbish their school buildings and build "Towngas China Charity Libraries" so as to promote a caring spirit within our neighbourhoods.

In 2015, the Group continued to support the "Firefly Programme" run by the Shanghai Soong Ching Ling Foundation – BEA Charity Fund. The Fund helps rural schools with limited resources build multi-media classrooms and equip them with computers, internet connection facilities, books as well as desks and chairs.

The Group highly concerns with regard to the education of the left-behind children in rural China and has worked closely with the China Guangcai Program Foundation and Beijing Global Village Environmental Education Center to spend six months in Yangqiao Village and Daping Village in Wuxi County, Chongqing City to provide tuition and care for the children remained in their rural hometowns.

Long-term Development Strategy

The Group's mission is to provide customers with a safe and reliable supply of gas, together with the caring, competent and efficient services they expect, while also working to preserve and improve our environment.

Moving forward, we will continue to focus on gas-related investment, exploration and operation management, with our principal business involving the sales and distribution of piped gas. We continue to uphold our principle of prudent financial management, while at the same time grasping every business opportunity to boost reasonable returns for our shareholders.

According to China's Thirteenth Five-Year Plan, the country's clean energy policies will continue to foster city-gas development in China. It will also play an important role in the government's response to climate change. Looking to the future, in view of the Group's inherent business advantages – our reputable gas brand and professional and reliable customer services, the Group will be able to seize market opportunities and further expand our business initiatives to sustain our well-established industry leading position.

Meanwhile, the Group will continue to lead our project companies in our expansion into new business arenas and the setting of new milestones. We will continue to fulfil our corporate social responsibilities, uphold our charity spirit and protect our environment, to spur ongoing growth and sustainable business development.
