

## **Towngas China Gentle Breeze Movement in Qingyuan launched to improve learning environment**

(10 December 2020) Towngas China Company Limited (Towngas China; stock code 1083) launched the Towngas China Gentle Breeze Movement (the Movement) at Dong Mang Primary School in Sanpai town, Liannan county, Qingyuan city. The charity educational aid campaign embodies the Group’s corporate social responsibility principle of “benefitting society through personal contributions”.

This edition of the Movement aims to help enhance the operating conditions of Dong Mang Primary School as well as repurpose part of the facilities, including the library.

Mr Isaac Yeung Chung-kwan, Towngas China Senior Vice President – Public Affairs, commented that the inheritance of cultural heritage takes place at schools, and that it is best to start the process as early as practicably possible. He hopes that the Towngas China Charity Library can serve as a platform to instill the love of reading in students, thereby enabling them to gain knowledge from and enjoy the reading process.

Mr Fang Yaguang, principal of Dong Mang Primary School, pointed out that the dated collection of the library can no longer satisfy the current educational and recreational reading needs of the students, both in terms of content and quantity. Towngas China Gentle Breeze Movement now enriched their collection, expanding it from a single genre to over 3,000 books comprising key works from around the world, reference books, history, geography and natural sciences, catering to the learning needs of students of various grades.

In addition, Towngas China Gentle Breeze Movement contributed to the construction of the Towngas China Charity Library and the repair of the school entrance, flag platform and outdoor sinks. Various in kind donations were also made, including a public announcement system, cabinets for teaching aids, computers, table tennis tables, basketball hoop, desks and chairs, uniforms, running shoes and other stationery and physical education necessities.

Officials from the governments of Liannan county and Sanpai town, Mr Isaac Yeung Chung-kwan, Towngas China Senior Vice President – Public Affairs, Mr Du Ye, Towngas China Assistant Vice President, Mr Zhu Weixi, Qingyuan Hongkong and China Gas General Manager, and other guests attended the launch event of both the Towngas China Gentle Breeze Movement, and unveiled Towngas China Charity Library yesterday.

Towngas China has been committed to shouldering its corporate social responsibility with the sincerest efforts, regarding it as the drive behind the Group's long-term development. The Group has taken the initiative to launch numerous public welfare activities throughout the years, of which Towngas China Gentle Breeze Movement is a key part. Established in 2013, Towngas China Gentle Breeze Movement has in its seven-year history of serving the public invested over RMB 4.3 million in over 40 schools across the country. The Group hopes to communicate its care and support for children through the Movement, so that they can learn with ease and without worries. With public welfare promotion becoming a habit, the Movement will continue to perpetuate the gentle breeze of love.

- End -
